EXPERIENCE

Inreport Systems, Dec, 2023 – Present as *Frontend Developer*
● Developed software for warehouse management, streamlining product sales, order processing, and agent administration.
● Improved sales cycle transparency and efficiency by 30% through a real-time monitoring dashboard with GPS tracking.
● Reduced report generation time by 50% by automating reporting with a React-based component, replacing manual Excel processes.

Dotsoft Group, Oct, 2022 – Dec, 2023 as *Frontend Developer*
● Developed software for warehouse management, enabling efficient product sales, order processing, and agent administration.
● Built a multiplayer Kahoot alternative using Firebase to replicate core functionalities for creating and playing online games.
● Designed a cloud-based platform that allows users to build custom applications and project management tools.

Team IT Coders, Aug - 2021 – Oct - 2022 as *Frontend Developer*
● Developed open-source UI components for easy integration into various applications.
● Built 10+ websites and web applications for local businesses using React.js, HTML, CSS, JavaScript, and WordPress.
● Conducted 7+ customer interviews to gather project requirements and ensure user-centric development.

PROJECTS

Intoday System, Oct 2023 – Mar 2024 | ReactJS, Shadcn UI, Firebase
● Developed a platform for teams to brainstorm, plan, and collaborate on tasks, covering everything from process documentation to product design.
● Built key features using React.js, allowing users to create projects, manage sheets and tasks, invite team members, chat within tasks, and collaborate in real time.

Inreport System, Dec 2023 – Present | ReactJS, Mantine UI, Firebase
● Developed a system for sales agents, departments, cash registers, and warehouse management, improving operations.
● Rebuilt the outdated system with optimizations, significantly improving speed and efficiency.
● Designed and integrated tools for reporting, remote management, and employee monitoring, enhancing oversight and decision-making.
● Built planning features and a secure infrastructure, ensuring protection, scalability, and adaptability.

EDUCATION
● Economical collage in Jizzakh, 2017 – 2020, Business Management
● TeamIT Academy, Full Stack Developer (Dec 2020 - July, 2021)

VOLUNTARY ACTIVITIES
● Won 1st place in a hackathon in Jizzakh (2021) by developing a website that provides real-time price information.
● Built a copy-and-paste design system with 15+ UI components for developers and designers.
● Created an open-source personal showcase platform, an alternative to read.cv, allowing users to present their work, projects, and experience interactively.

TECHNICAL SKILLS
● Proficient: Javascript, ReactJS (NextJS), Zustand, Storybook, TailwindCSS, Typescript
● Prior experience: Firebase, NodeJS, MongoDB
